Claim Objections

Claims 1-6,11 are objected to because of the following informalities: In claim 1 line 12, it appears that "an" (both occurrences) should be changed to "a". In claim 2 line 5, "the outlet" lacks proper antecedent basis, and it appears that "tube" should be inserted after "outlet". In claim 11 line 1, "an outlet tube" lacks proper antecedent basis since claim 10 sets forth an outlet tube (lines 11-12), and it is unclear if applicant is referring to the outlet tube set forth in claim 10, or if applicant is attempting to set forth a different outlet tube. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7,8 are rejected under 35 U.S.C. 102(b) as being anticipated by Neumeyer (4,779,765).

Neumeyer discloses an inductor assembly including an induction chamber 28, a trajectory control assembly 74, an inlet tube 92, 94 and an outlet tube 102, 104.

Allowable Subject Matter

Claims 1-6,10,11 are allowed.

Claim 9 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3671

Election/Restrictions

Applicant's election without traverse of claims 1-11 in the reply filed on 9/19/05 is acknowledged.
